

$\{f_{\alpha}^{(n)}\}_{n \in \mathbb{N}}$ is a sequence of functions in $C_c^\infty(\mathbb{R}^d)$ such that $f_{\alpha}^{(n)} \geq 0$, $\int_{\mathbb{R}^d} f_{\alpha}^{(n)} dx = 1$, and $f_{\alpha}^{(n)} \rightarrow \delta_{\alpha}$ in the sense of distributions as $n \rightarrow \infty$. Then, for any $\phi \in C_c^\infty(\mathbb{R}^d)$, we have
